

Casement & Awning

The Harvey vinyl casement window is available in either a single unit or in multi-unit combinations. It's beautiful and functional in any room because it offers smooth operation and maximum ventilation. You don't need to stretch to reach a top lock because one easy-to-reach latch unlocks the window.

Count on Harvey quality and superior design for the added benefits offered by a solid vinyl casement window. You'll start to see your world in a much brighter light.

Vinyl Casement and Awning features include:

- 7/8" Insulating glass with PPG Intercept® warm edge spacer system
- ENERGY STAR qualified with optional Low-E glazing (add Argon gas for ultimate energy efficiency)
- A fusion-welded frame and sash
- Truth Maxim® hardware assembly including compact folding handle (standard)
- Single latch, multi-point locking system on casement secures window at top, middle and bottom of sash
- Available in white, almond, bronze (interior and exterior) and over 25 exterior color choices (white or almond interior only)

Awning Window

*See actual warranty for details.

Classic Rolling

Our line of vinyl windows would not be complete without the unique possibilities of our Classic rolling window. Rolling windows are easy to operate and are a nice option for a porch or family room. A half screen is included; a full screen is optional.

- 7/8" Insulating glass with PPG Intercept® warm edge spacer system
- ENERGY STAR qualified with optional Low-E/Argon glazing
- Available in white, almond, bronze (interior and exterior) and over 25 exterior color choices (white or almond interior only)

The rolling window is also an ideal choice for additions, multi-unit apartments buildings, condominiums and more.

Hopper & Picture

Hopper Window

A hopper window is an excellent choice for basement applications. This window tilts in from the top with a gentle tug on the handle. The hopper includes a full screen and is custom made to fit your opening. This is especially valuable when dealing with masonry openings.

A picture window can be combined with casements or double hungs for sweeping views.

Casement, awning, rolling and picture windows are available in the colors below. Hopper windows are available in white and almond only.

Actual colors may vary.

Over 25 exterior colors also available for picture window (white or almond interior)
