

Designer Shapes

Specialty Windows

Thanks to our special vinyl forming process, you can add variety and individuality to your home. Our specialty shapes, including octagons, triangles, roundtops and full circles offer unlimited opportunities to customize your windows. We also offer numerous grid options to enhance your interior design possibilities. Wood trim can be specified on any specialty window for added value and beauty. Your imagination is your only limitation, with a virtually endless combination of sizes and shapes.

Designer shapes feature:

- 7/8" Insulating glass for maximum efficiency
- ENERGY STAR qualified with optional Low-E glazing (add Argon gas for ultimate energy efficiency)
- 100% virgin PVC with .098" nominal wall thickness provides strength and beauty
- 3-1/4" jamb depth accepts several interior wood trims and extension jambs
- Fully welded frame construction

Available in: White Bronze Almond

Actual colors may vary.

Over 25 exterior colors also available
(white or almond interior)
